February Educational Presentation

Buffalo nickels have always been one of the favorite series to collect. Minted from 1913-1938, the series features interesting varieties and condition rarities that make a complete Buffalo nickel collection a worthy challenge. Orv Dietrich will present the Buffalo nickel coinage and answer many of our questions on what to look for in Buffalo nickels for your set. Orv has specialized in Buffalo's and will share the wisdom of his experiences. Be sure to attend this presentation on a classic American coin series.
